

Chapter 1

Errata for MPI-2

This document was processed on October 2, 1997.

The known corrections to MPI-2 are listed in this document. All page and line numbers are for the official version of the MPI-2 document available from the MPI Forum home page at <http://www.mpi-forum.org>. Information on reporting mistakes in the MPI documents is also located on the MPI Forum home page.

- Page 273, line 24 reads

```
void Send(void* buf, int count, const MPI::Datatype& type,
```

but should read

```
void Send(const void* buf, int count, const MPI::Datatype& type,
```

- Page 354, line 17 reads

```
void Get_version(int& version, int& subversion);
```

but should read

```
void Get_version(int& version, int& subversion)
```

- Page 354, lines 25-30 read

```
Exception::Exception(int error_code);
```

```
int Exception::Get_error_code() const;
```

```
int Exception::Get_error_class() const;
```

```
const char* Exception::Get_error_string() const;
```

1 but should read

```

2
3     Exception::Exception(int error_code)
4
5     int Exception::Get_error_code() const
6
7     int Exception::Get_error_class() const
8
9     const char* Exception::Get_error_string() const
10

```

- 11 • Page 357, line 24 reads

```

12     MPI_CART_RANK    Cartcomm    Get_rank    int rank
13 but should read
14     MPI_CART_RANK    Cartcomm    Get_cart_rank    int rank
15

```

- 16 • Page 359, line 27 reads

```

17     MPI_TOPO_TEST    Comm        Get_topo    int status
18 but should read
19     MPI_TOPO_TEST    Comm        Get_topology    int status
